The Marlborough Cob MKII

The Marlborough Cob is based on a 3.5 ton Renault Master or Vauxhall Movano chassis. The box is constructed of G.R.P. It has been designed to carry larger horses than the "Sport" having an internal height of 7'4".

Carrying capacity is around 1150 Kilos depending on the exact finish of the box. Upgrading to 3.9 Tons lifts the carrying capacity to 1550 Kilos.

Body

Made of white faced GRP. Wide and very low ramp, carrying two horses rear facing. Ramp is spring assisted. Moulded luton and side fairings. Moulded rear wheel arches. Metallic paint with choice of colour. Sign written and lined. 2 External tie rings.

Horse Area

Stainless steel full length rubber bottomed and padded partition with several stall widths available. Storage for partition to offside to make mare and foal box. Jockey door to grooms/luggage area. Breast bar 4'6" high with solid bulkhead below. Heavy duty rubber floor mats with drainage holes. EVA rubber protection to vehicle sides to a height of 4'. Two tie rings and two haynet rings. Soft removable headboard fastened to central partition. Three opening windows. One 4-way opening roof ventilators. Internal light over ramp.

Rear Compartment

Wide rear opening door. Internal light. Saddle poles and bridle rack. Plug for coldbox or kettle. Upholstered seating for four persons. Beech table. Storage in wheel boxes.

Cab

Three seat cab. Radio cassette player with steering wheel finger tip controls. Remote door control key. Engine Immobilizer. Spacious door pockets, coat hooks and lockable glove compartment. Toolkit.
